Role of VPC:

VPC member sit with both parties in a room along with some respectable family members and tell them that it's not the time to fight. He said to religious person that its not the time of preaching anyone's Islam. The family has many guests in house and due to your preaching on what is right what is wrong can leads this issue to fight. He said that I attend some of the peace activities in our village arranged by one organization and village peace committees and in these activities I learned that not to fight on sects on religions. Do not start hate speech on any of the sect. We all are free in this country and we have right to live our life with our own style. We can't change anyone's mind by force. Even our prophet Hazzat Muhamad PBUH don't force anyone to change his religion or believe. The religious leader understands the issue and said apologies to the family
