Due to this other community was also unable to across the street due to blockage. Because of this other community of the village also fights with those people who block the street. The whole village was upset due to this situation

How the problem solved:

VPC members decided to pave the street with their own resources as most of the streets were not paved in the village and think that if they paved the street with their own recourses everyone will own the street and issue will be resolved

Role of VPC:

1st of all VPC members conducted meeting with the male community of both sects at 4 different places and sensitize them that don't fight with each other. As 6,7 houses from 2 major sects Ahl e sonat and Ahle tashi who are living in 1 street fights on daily basis and due to their fight and hate speech on different sects peace of whole village was destroyed and all community members were upset because they block the street every time after fighting. After sensitizing them VPC members invited Mr Tahir shabir sb (MPA) as chief guest in Saraiki poetry recital (Social action) and request them for street restoration fund. Tahir shabir sb promised them that he will link them/ provide them restoration fund. Within one month VPC members got approval from the department that 5 Lakh rupees are allocated for the restoration of streets. Now the restoration work is completed and the households knew that this street is not only their property, it's the property of all villagers because the street is restored by government. VPC members invite both sects in social action projects so that they
