Introduction of Organization:

SANJH is a non-profit and non-governmental, non-political organization. SANJH was established on 10th December 1973 and was registered with Social Welfare & Bait-UI-Mal Department in March 1974. With the passage of time, its spectrum of activities and areas of outreach increased many folds which compelled the SANJH management to enter into a registration that can legitimately allow SANJH to work in wider area outreach throughout the country. So, SANJH registered with Security & Exchange Commission of Pakistan (SECP) on May 2019.

SANJH is a word of local language which means collaboration and partnership of people and it works with local communities for their development through joint initiatives according to their local needs. SANJH has believed on sustainable development and striving to bring positive change through participatory development according to their local needs. SANJH practices community led approaches at grass root-level while working with local communities.

- ▶ Vision: SANJH envisions an educated society free from poverty, where communities unite for climate action, live in peace and prosperity, and have access to health facilities, clean water and sanitation.
- ▶ Mission: Mission of SANJH is to educate and empower communities by addressing the root causes of poverty, fostering collaboration for sustainable climate action, promoting Justice and Peace, ensuring access to health facilities, clean water and sanitation for all. We are committed to create a lasting change through inclusive and community-driven initiatives for equitable society.

Projects in 2020:

- ▶ SANJH Modern School System

SANJH Modern School System:

Objectives:

Following are the objectives of the SANJH Modern Schools System:

1. To aware the labours of brick kilns about worker's rights.
2. To promote education of children among brick kilns labours in district Muzaffargarh
3. To educate the children living in the local areas.
4. To decrease child/bonded labour.

Background:

SANJH team conducted mobilization meetings with the owners of brick kilns regarding primary/child education and requested brick kiln owners to give permission to the parents of children working at brick kilns to enroll their children in schools so that they can be able to

live their life and think critically. As well as SANJH team mobilized the parents of children for development of community by considering future of the children.

As well as SANJH Modern Schools System explained the importance of primary/childhood education to the community and owners of brick kilns as; Primary education is not just about learning the basic skills but in the early years a child forms critical, emotional, social, and cognitive skills via rapport that forms between the child, their parents, and the influence of their social environment. A friendly relation among children and their parents as well as teachers during the early years provides the framework for all their future developments. Therefore, there is such emphasis on the importance of early childhood education/primary education.

After that by recognizing poverty and bonded/child labour in lagging areas of Muzaffargarh; SANJH (Society for the Advancement of Nature, Justice & Health) established SANJH Modern Schools System in the district Muzaffargarh (Punjab, Pakistan) from May, 2016 for the education of children working at brick kilns.

SANJH Modern Schools System is providing education to the children of brick kilns workers as well as SANJH is giving free education to the children along with books and uniforms for students. With the passage of time; SANJH team also conducted counseling sessions for the parents of children for the betterment of their future and motivated them towards learning. SANJH team also makes awareness sessions with all the people as well as owners of brick kilns for educating the children in local areas of Muzaffargarh.

After that SANJH Modern Schools System requested PEF (Punjab Education Foundation) to authorize the schools made for the education of children living in the areas of Muzaffargarh district and gets affiliated by b PEF (Punjab Education Foundation).

Currently SANJH Modern Schools System is running seven schools for children and decreasing child labour in different areas. In total 830 students are enrolled in the schools and getting education.
